

Cannova® Bronze Orange Canna

Cannova is the first seed F1 canna series that offers an easy-to-grow option in this heat-tolerant class. Improved young plant performance provides more useable plugs that are uniform and earlier than other seed canna programs. Plus, the strong color selection captivates the landscape market. Cannova is a versatile series that works well in 4-in. (10-cm) pots to 2 gallons and is ideal for cart programs. Supplied as virus-free seed and plugs.

Cannova offers a unique option for cannas and Bronze Leaf Orange is the second bronze foliage variety in the series! The bronze foliage offers striking contrast with the flowers and is a great option for mixed combinations or in-ground plantings.

General Information

Height:	Spread:	Exposure:
30 - 48" (76 - 122cm)	14 - 20" (36 - 51cm)	Sun

Germination Guide

Plug Size:	Cover Seed:	Germination Temp:	Days to germinate:	Plug Crop weeks:
72	Heavy cover	75-80°F (24-27°C)	7-10	4-6

Finishing

Soil pH:	Temperature Day:	Temperature Night:	Fertilization (ppm N):	No. of Pinches:
6.2-7.0	70-85°F (21-29°C)	60-80°F (16-27°C)	13-2-13-6-3 and/or 20-10-20	0

Plant Growth Regulators (S) = spray / (D) = drench:	Pests:	Diseases:
2 ppm Bonzi (D) 7-10 days after transplant.	Aphids, Thrips, Cut Worms	Bacteria, Pythium, Rhizoctonia

Comments:

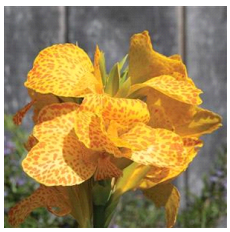

Avoid overhead watering during finishing process. Overhead watering increases the risk of bacterial infection. All Cannas are susceptible to virus – most commonly "Canna Yellow Mottle Virus." If this happens, affected plants and surrounding plants should be rouged and the area disinfected.

Crop Time (weeks)

4- to 5-inch (10- to 13-cm) Pots, Quarts :	6-inch (15-cm) Pots, Gallons:	10- to 12-inch (25- to 30-cm) Tubs or Baskets:
10	12	17

NOTE: Growers should use the information presented here as guidelines only. Ball Ingenuity recommends that growers conduct a trial of products under their own conditions. Crop times will vary depending on the climate, location, time of year, and greenhouse environmental conditions. It is the responsibility of the grower to read and follow all the current label directions relating to the products.
